Robert John Aguio

FULL-STACK WEB DEVELOPER

Davao City, Philippines | +63 992 485 4526 | robertjohnaguio@gmail.com | github.com/UserReji | rjaguio.vercel.app

PROFESSIONAL SUMMARY

Full-stack developer graduating with a BSIT degree, with hands-on experience building production-style web applications end to end using Laravel, Next.js, and MySQL. Delivered a complete Laravel-based system during practicum and maintain a Next.js portfolio with custom UI systems and full-stack CRUD features. Comfortable across the stack, from database design to responsive front-end interfaces, with additional exposure to IoT development using ESP32. Seeking a full-stack developer role or remote freelance work to apply and grow these skills in a professional team environment.
